Subject (in full) Modus Operandi of Pill Manufacturing

Made by D.I. Papp

Forwarded by Supt. Quayle

Recently 3 cases came to notice of pill manufacturers using foreign style houses for the purpose of manufacturing opium substitutes. These dwellings have been found to be new constructions and had all windows painted up or pasted up with paper. The work of manufacturing pills was being performed during the night.

In view of the above facts I most respectfully beg to request that the attention of the Police on night duties be called to the above facts with instructions to report any such houses for the purpose of further investigations.

*It might be better if only foreigners were warned to keep their eyes open for such places.
